

ICT30115 - Certificate III in Information, Digital Media and Technology

Ready to launch your ICT career?

A career in ICT is exciting, dynamic and varied! Traditionally men fill over 70% of ICT jobs, however for women working in the industry, many have forged successful careers.

To encourage and support women to pursue a career in ICT, the Australian Computer Society (ACS) Tasmania, in partnership with TasTAFE has developed an exciting new program.

Over 12 months, three days a week (excluding school holidays) female participants will gain technical skills and knowledge, along with having access to:

- Mentoring
- Workplace visits
- Industry guest speakers.

This program is ideal for school leavers, mothers or carers looking to return to the workforce, or women looking for a career change. ACS will be offering scholarships to assist with course fees. Travel and childcare subsidies may also be available and this information will be provided when applying for the course.

This program is supported by the Tasmanian Department of State Growth

Cost

For full fee details, visit www.tastafe.tas.edu.au/fees. Some courses may incur additional levies and resource costs. Contact us for full details.
